

Juniors Pathway Champion (11 to 16 year olds)

Hi, I'm James, and I've been involved with AFC Fradley from its inception back in 2022. I have been so impressed at how quickly we have grown and become a 2-star accredited club.

I come from a footballing family, and I'm passionate about sharing my skills and experiences. I am qualified in safeguarding, first aid, FA playmaker and FA coaching Level 1 while working towards Level 2 and beyond.

I've loved my role as a coach in both u10s/11s and also with soccer camp. It's great to see the footballers develop new skills and attributes to use on and off the pitch.

In my role as Pathway Champion, I want to help teams grow from junior teams into young adult teams. Playing the right way and giving them the best opportunities moving on into adult football.

Chairman Darren Peck says,

James is an ideal candidate to lead our Junior 11-16-year-old pathway at AFC Fradley. With a strong passion for football running in his blood, he has become an integral part of our team. James was one of the first coaches to take on a team when his children were too young to play. He was eager to help an older team grow and develop their skills as footballers. James is very supportive of our soccer camp, often showing up to help while on his way to coach his team, depending on the kick-off times. He is not afraid to express his thoughts and ideas and perfectly embodies the AFC Fradley Ethos. James is ambitious and driven to guide footballers through his pathway and help them achieve success in adult football. He is a great asset to our club.
